initiative

Subject: IBM CSR Initiative intervention in Karimganj District of Assam to provide Skill Development and Employment enhancement support to students of various colleges and schools.

Date: 6<sup>th</sup> February 2023

Dear Sir,

This is Rohit Rajput, Deputy Manager at CSRBOX is currently implementing IBM SkillsBuild PAN India. IBM SkillsBuild is a CSR initiative by IBM that aims to impart the latest technical and professional skills to students across India through a digitally free platform and multiple academic interventions. IBM through its CSR initiative is aiming to enhance employment opportunities by imparting industry-relevant Technical skills, Professional skills, and Job readiness skills amongst students in alignment with section 4 of New National Education Policy 2020. We are currently performing our interventions in various districts of Mizoram, Uttar Pradesh, Delhi, Haryana, Odisha, Punjab and Telangana with the support from the district administration to create awareness about emerging technologies and workplace skills in students and educators. After successfully conducting our intervention in various geographies we would like to extend these benefits with Karimganj district (Assam) as well.

**About IBM SkillsBuild Digital Learning Platform:**

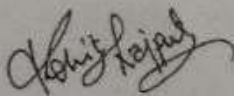

IBM SkillsBuild is a free access digital learning platform with more than 85,000 learning activities that focuses on industry-relevant skill development in students from colleges and schools. On successful completion of certain courses, students can earn IBM certified badges and certificates which help them showcase the latest industry-relevant skills that they have acquired. For SkillsBuild beneficiaries we also offer employment opportunities that are region and industry-specific. We connect all the registered candidates on SkillsBuild Platform to the recruiters through its network of companies. Currently, IBM SkillsBuild has partnered with 200+ Educational Institutes, State Universities, Skilling Agencies, Government Agencies, and Corporates and onboarded 2,00,000+ youth across India up till now on the IBM SkillsBuild Platform.

**Requirements from District:**

We are looking forward to your kind approval for the intervention by signing the LoU (Letter of Understanding), based on your approval our resource person, **Shubham Naskar (Project Associate at IBM SkillsBuild)** will travel to your district on dates convenient for both the parties and we will begin facilitation of the session in shortlisted schools and colleges across weeks/days (based on requirements). During the intervention, We request District skill committee to manage accommodation and inter district commuting. Lastly, the resource person will be travelling to some adjacent district as well post your intervention so we'll be glad if he can be escorted to the next district.

As per the discussion with MGNF Fellow from your district, we will conduct our differential capacity building orientation certification programme at schools and colleges. Therefore, request you to plan an itinerary for the same and share that with us.

Best Regards

**Rohit Rajput**

Deputy Manager- IBM SkillsBuild

**Manoviraj Singh**

Manager-CSR & Social Impact
